About Me

Enthusiastic and motivated Computer Science undergraduate with a strong interest in Full Stack Java Development. Skilled in Java, JDBC, JSP, Servlets, MySQL, HTML, CSS, and basic JavaScript with knowledge of developing dynamic and database-driven web applications. Passionate about learning new technologies, solving real-world problems, and writing clean and efficient code. A quick learner with good communication, teamwork, and problem-solving skills, seeking an opportunity to start a professional career in the IT industry and contribute to organizational growth.

Projects

E-Library Management System | Java, JDBC, JSP, Servlets, MySQL, HTML, CSS

- Developed a web-based library management system to manage books, students, and library records efficiently.
- Implemented Java Servlets and JSP for dynamic web application development and backend processing.
- Integrated MySQL database using JDBC for efficient data storage, retrieval, and management.
- Designed responsive and user-friendly interfaces for smooth navigation and improved user experience.
- Deployed the application on a server and managed configurations for reliable accessibility and performance.

Bank Management System | Java, Swing, MySQL

- Developed a desktop-based banking application using Java Swing to automate banking operations.
- Implemented CRUD functionalities for account creation, transaction management, and customer record handling.
- Designed secure data handling mechanisms to ensure data privacy and integrity.
- Integrated MySQL database for managing customer details and transaction records efficiently.
- Developed reporting modules to display account information and transaction history.

Certifications

- **Java Programming Masterclass: Beginner to Advanced** Udemy
Gained strong understanding of Core Java, Object-Oriented Programming, JDBC, Collections Framework, Multithreading, and Java application development concepts.
- **Ninja Slayer 2.0 – Coding Ninjas** 2024
Demonstrated coding and problem-solving skills through competitive programming and technical assessments.
- **Certificate of Publication – IJFMR** 2025
Recognized for contribution to research and innovation through published technical work.
- **Hackathon Participation Certificate – HASHHACKS 7.0**
Participated in a 24-hour hackathon focused on building technology solutions for education accessibility, organized by Cluster Innovation Centre, University of Delhi.
- **Mentor, Web Development Team – Google Developer Group (GDG)**
Mentored budding developers and contributed to technical learning, collaboration, and community engagement on campus.

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

2022 – 2026

Skills

- **Programming Languages:** Java, SQL
- **Java Technologies:** JDBC, JSP, Servlets, Swing
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, NetBeans, VS Code
